Kevin MacManus, Radiation Safety Officer
High Mountain Inspection Service, Inc.
P.O. Box 1508
Mills, Wyoming 82644

SUBJECT: HIGH MOUNTAIN INSPECTION SERVICE, INC. - NRC INSPECTION REPORT 030-33887/2025-001; AND NOTICE OF VIOLATION

Dear Kevin MacManus:

This letter refers to the announced inspection conducted on July 28, 2025 at your facilities in Rock Springs, Wyoming. The inspection was an examination of activities conducted under your license as they relate to public health and safety, to confirm compliance with the U.S. Nuclear Regulatory Commission's (NRC's) rules, regulations, and with the conditions of your license. Within these areas, the inspection consisted of observation of licensed activities, independent radiation measurements, review of required records, and interviews with personnel. An exit meeting was held with you and your staff on August 8, 2025.

Based on the results of this inspection, the NRC has determined that three Severity Level IV violations of NRC requirements occurred. The violations were evaluated in accordance with the NRC Enforcement Policy, which is included on the NRC's website and can be referenced at http://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html.

The violations are being cited in the enclosed Notice of Violation (Notice) because they were identified by the NRC during the inspection. The violations involved failures to meet NRC security requirements and not conducting surveys to evaluate the radiological conditions or potential hazards in unrestricted areas where sealed sources were stored. You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. The guidance in NRC Information Notice 96-28, "Suggested Guidance Relating to Development and Implementation of Corrective Action," may be helpful in preparing your response. You can find the Information Notice on the NRC website at https://www.nrc.gov/docs/ML101100750 and https://www.nrc.gov/docs/ML031060071.

Information regarding the reasons for each violation, the corrective actions taken and planned to correct the violations and prevent recurrence, and the date when full compliance will be (was) achieved should be addressed. The NRC review of your response to the Notice will also determine whether further enforcement action is necessary to ensure compliance with regulatory requirements.

The Enclosure contains Sensitive Unclassified Non-Safeguards Information.
When separated from the Enclosure, this cover letter is decontrolled.

If Security-Related Information is necessary to provide an acceptable response, please mark your entire response as 'Security-Related Information' at the top and bottom of each page, in accordance with 10 CFR 2.390(d)(1), and follow the instructions for withholding in 10 CFR 2.390(b)(1). In accordance with 10 CFR 2.390(b)(1)(ii), the NRC is waiving the affidavit requirements for your response.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from ADAMS, accessible from the NRC website at http://www.nrc.gov/reading-rm/adams.html. However, the material enclosed herewith contains Security-Related Information as described above. Therefore, the material in the enclosure and your response, if applicable, will not be made available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS).

If you have any questions regarding this letter or the enclosed Notice of Violation, please contact Jason Dykert at (817) 200-1427, or the undersigned at (817) 200-1455.

Sincerely,

Signed by Roldan-Otero, Lizette
