NRC FORM 591M PART 1
(04-2022)
10 CFR 2.201

U.S. NUCLEAR REGULATORY COMMISSION

SAFETY INSPECTION REPORT AND COMPLIANCE INSPECTION

1. LICENSEE/LOCATION INSPECTED	2. NRC/REGIONAL OFFICE
WR Non Destructive Testing, Inc. LICENSEE'S FACILITY RD 659, KM. 1 MAGUAYO ADENTRO DORADO, PR 00646 **REPORT NUMBER(s) 2025001**	Region 1 475 Allendale Rd Suite 102 King of Prussia, PA 19406

3. DOCKET NUMBER(S)	4. LICENSE NUMBER(S)	5. DATE(S) OF INSPECTION
030-35477	52-25538-01	08/29/2025

LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

☐ 1. Based on the inspection findings, no violations were identified.

☐ 2. Previous violation(s) closed.

☐ 3.The violations(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy, to exercise discretion, were satisfied.

_____ Non-cited violation(s) were discussed involving the following requirement(s):

☑ 4. During this inspection, certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited in accordance with the NRC Enforcement Policy. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11. (Violations and Corrective Actions)

10 CFR 71.5(a) requires, in part, that a licensee who transports licensed material outside of the site of usage, as specified in the NRC license, or where transport is on public highways, or who delivers licensed material to a carrier for transport, comply with the applicable requirements of the regulations appropriate to the mode of transport of the Department of Transportation (DOT) in 49 CFR Parts 171-180.

49 CFR 172.704(c) requires, in part, that a hazmat employee receive initial training, and recurrent training at least once every three years.

Contrary to the above, from November 28, 2019, to August 29, 2025, the licensee transported licensed material on public highways and did not provide recurrent training at least once every three years for three of its hazmat employees. Specifically, following expiration of hazmat training in November 28, 2019, the RSO and two licensee employees transported licensed materials on public highways without receiving additional recurrent hazmat training.

As corrective actions, the RSO committed to completing online refresher hazmat training and to providing employer-led training to hazmat employees prior to transporting hazardous material. The licensee was previously unaware of the three-year recurrent training requirement and committed to maintaining compliance in the future.

This is a Severity Level IV violation (Enforcement Policy 6.3.d.4)

Statement of Corrective Actions

I hereby state that, within 30 days, the actions described by me to the Inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.
